

NGX™ – NEXT GENERATION JUKEBOX

The NGX, AMI's latest addition to the Rowe jukebox product line, is economically priced, easy to service, and allows customers to quickly transform its look and shape with AMI's interchangeable Smart Skins.

INFINITE LOOKS

Revolutionizing today's jukebox marketplace, AMI introduces its first series of interchangeable Smart Skins that secure onto the NGX, enabling the jukebox to adapt to, or stand out from, its surrounding décor. Each skin has the ability to communicate with the jukebox software, adding special graphics and features related to that skin.

EFFORTLESS SERVICEABILITY

The NGX serviceability is practically effortless, requiring just one person for installation, no mounting brackets, and no tools for common service.

IMMEASURABLE VALUE

The NGX jukebox is affordably priced, simple to install, and customizable. Its software enables patrons to quickly find their favorite music, suggests additional songs to accompany what they have already picked, and offers access up to 300 local albums and over 735,000 additional songs available online. All priced at an incredible VALUE.

Built for what you need NOW, built to become ANYTHING you need tomorrow.
